Ramblers Win One, Lose One

Although the weather nor the ice were meant for hockey playing, Alex Maple Leafs and Didsbury Ramblers tried it here Feb. 2, with the locals getting credit for the win by a 6-3 margin.

Little can be said about the game other than the fact it would have been played better without skates. Ramblers led 2-1 at the end of the first on goals by Papke and Haynes, increased it to 4-1 in the second when Papke and Hamilton tallied, and ploughed their way to a win on two counters by Smith in the third.

Playing in Red Deer two nights later Ramblers took their worst trimming of the season as they watched and we do mean watched, Red Deer Monarchs skate to an easy 11-1 win. No more will be said about this game here outside of the fact that Lloyd Deane saved Didsbury from being shutout with a second period goal.

WESTERDALE NEWS

(From Our Own Correspondent)

A very enjoyable evening was spent last Tuesday at the home of Mr. and Mrs. H. Jackson when six tables of whist were in play. High honors went to Miss Kathleen Eggen and Mr. W. H. Among those visiting Calgary at the weekend were Mr. and Mrs. G. Belfus and Mr. and Mrs. P. Luft.

Mr. Mari Roym passed away suddenly at his home in Sundre on Saturday and sympathy is extended to the family. The Roymns were formerly Elkton residents.

Legion Polio Campaign To Continue Through Feb.

The Polio campaign was to have been for the month of January but owing to the cold weather the Legion members were unable to canvas the district, so it will carry on during the month of February.

The objective of the fund is \$100,000 for Alberta. Let's hope the community will produce its share.

The Red Cross throughout Canada have agreed to try and produce the gamma globulin, which has been found to be the greatest aid in fighting polio. There is still a lot of research to be done on gamma globulin and while it has not been perfected yet, it is the only immunizing factor so far discovered and by its use it is hoped to inoculate persons who have been brought in contact with polio itself. When the Red Cross comes around again for blood donations it is hoped they will receive the response necessary to carry on this vital work.

Following is some of the facts as to how the money raised during the campaign will be used in the fight against Polio.

The money raised from the fund will be used to help in the transportation of victims to recognized Polio hospitals. This is not provided for by any other agency.

It is the intention of the fund, directed by the Medical Advisory Committee, to aid doctors and nurses to take special courses in institutions where advanced knowledge on Polio may be obtained.

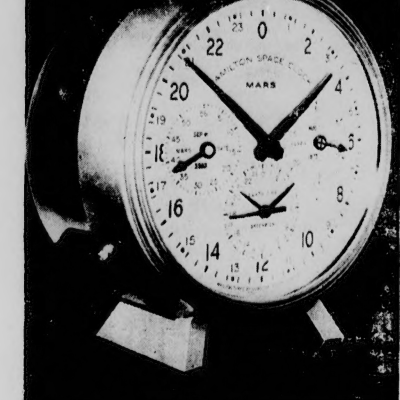

Also aid will be given during the initial or acute stage, which is the first 10 to 14 days. Aid will be given to any victim who has not resided within the province for a full year. Department of Health regulations do not cover these cases.

Your funds will buy equipment such as respirators, iron lungs, polio packs, wheel chairs and braces, to augment the needs of our hospitals in time of need.

Only 10 per cent of the money raised in Alberta may be called for by the National Foundation for research and to assist in the purchase of gamma globulin. The balance will be spent right here in Alberta.

It is the definite intention to keep organizational and operating expenses at not more than 5 per cent of the funds raised. The books will be audited by a reputable firm of chartered accountants and full information will be made available to the public.

The Legion will not benefit financially in any way in this effort and are doing it solely as a community service. When the canvasser calls, give what you can, but be sure you give!

If you're thinking of a trip to Mars, here's just the thing to keep you from missing interplanetary connections. The world's first space timepiece shows comparative passage of time — days, hours, months and years — on earth and on the planets. The numbers around the face indicate Martian time, which passes only half as fast as earth time due to greater distance from the sun.

MANY FROM HERE ATTEND "MARTIN LUTHER" FILM

(From Our Own Correspondent)

Well over 200 members and friends of Redeemer Lutheran Church availed themselves of the opportunity this past week to see the film "Martin Luther" currently showing at the Palace Theatre, Calgary.

The film was produced by Lutheran Church Productions, Inc., a joint undertaking of six Lutheran church bodies, and filmed by Louis de Rougemont Associates in Germany.

The major Hollywood studios considered the film too controversial and risky. It has, however, proven to be successful financially as well as artistically.

In a recent judging by the National Board of Review of Motion Pictures, "Martin Luther" was rated fourth of the ten outstanding pictures produced in 1953. The film has won the support of all major Protestant churches. Evangelist Billy Graham issued an unqualified endorsement of the film after he had seen it in the Loop Theatre in Chicago. "No punches are pulled in giving the full story of why and how Protestantism was born and how justification by faith became the watchword of the Church."

The film will continue at the Palace until Thursday of this week.

SPRINGSIDE NOTES

GOVERNMENT BUSINESS

ALBERTA'S OIL POLICY

Orderly development and intelligent use of Alberta's oil resources, to best serve the interests of the people of Alberta and of the nation as a whole, is the basis of Alberta's oil policy. Your government is committed to these 5 main points.

1. To encourage orderly development to meet Canada's needs for petroleum products, and reduce dependence on the oil supplies of other nations.
2. To see that waste is prevented through the use of up-to-date engineering methods.
3. To establish prospecting and leasing regulations to encourage free and competitive enterprise and prevent monopoly.
4. To obtain for the people of the province a fair share of returns from oil production.
5. To assure fair and generous treatment for the owner of surface rights.

One-third of your government's revenue comes from oil and natural gas development. This money is allocated to capital expenditure and debt reductions that guarantee continued development and progress of our province.

That Alberta's Oil Policy is designed for the greatest good of the greatest number is now evident by our expenditures on capital construction and debt retirement, which in the past six years, have exceeded revenue from Oil Development by \$37,700,000.00. In addition, Alberta's oil industry is a major factor contributing to industrial development, population increase, better housing and distributing facilities, reduced prices for petroleum products, greater employment, payrolls and improved local markets.

WEDDINGS

LUFT — BUDDEN

The Presbyterian Church in Rocky Mountain House was the scene of the wedding on Saturday afternoon, Jan. 16, when Miss Jane Budden of Calgary, daughter of Mr. Budden of Butte, and the late Mrs. Budden, and Mr. Donald Luft, son of Mr. and Mrs. J. Luft of Didsbury were united in marriage. Rev. A. L. Sutherland officiated.

Given in marriage by her brother, Mr. Robert Budden, the bride looked lovely in a floor length gown of white satin. Lace fashioned the long sleeved bodice and her matching veil was held in place by a satin bandeau. She carried a bouquet of red roses.

Miss Nellie Budden, as maid of honor, was dressed in mauve net over taffeta with the strapless bodice modified with a matching lace bolero. She carried a bouquet of yellow chrysanthemums.

Mrs. Shirley Umari and Miss Mildred Olsen of Calgary were bridesmaids, attired in similar gowns of pale blue and salmon net over taffeta with matching lace boleros. Their bouquets were pink and white carnations.

Mr. Howard Luft, brother of the groom, was best man and ushers were Cliff Haderer and Ross Godkin. Mrs. Harold McCabe played the wedding music and during the signing of the register sang "I'll Walk Beside You."

A reception was held in the W.I. hall, with toast to the bride proposed by Mr. Sutherland. Servers were Miss Evelyn Rutch and Miss Jean Hamilton, with Mrs. Paul Ollich in charge.

Mrs. E. Godkin of Butte and Mrs. Luft of Didsbury received with the bridal couple.

Following the reception, Mr. and Mrs. Luft left for a honeymoon trip to an unannounced destination and on their return will reside in Didsbury.

bury.
Out-of-town guests were Mr. and Mrs. J. Luft, Mr. and Mrs. W. Cook, Mr. and Mrs. P. Luft, Miss Wilma Luft, Mr. Brian Luft, Mr. Ken Bagshaw and Mr. Don Freeman of Didsbury; Mr. and Mrs. J. Narum and Delores Haderer of Calgary, and Mr. and Mrs. John Moore of Eckville.

Milk
Powder

When the day's supply of milk is running short, Milk Powder is a real convenience! It's easy to mix a quart or a cupful of milk to add flavour and food value to your cooking. Milk Powder is an excellent, inexpensive source of complete protein, calcium, riboflavin, Vitamin A. In many recipes, you do not need to rehydrate Milk Powder; just mix it with the dry ingredients. When using it to drink, you'll find its flavour improves after standing overnight in the refrigerator.

TO RELIQUIFY MILK POWDER:

1 To make 1 cup, sprinkle ¼ cup Milk Powder on 1 cup lukewarm water.

2 Beat or shake until Powder dissolves.

3 Pour into container, cover and store overnight in refrigerator. This improves consistency and flavour.

Through The Study Window

By REV. C. C. ARMSTRONG

Last June many of us lay awake in the very early hours of the morning. This was not because of a guilty conscience, nor as the result of too much coffee the night before. Far away, in Westminster Abbey, the Queen was being crowned. It was an event to stir memories and quicken hopes.

When Elizabeth and Philip visited Canada, we were privileged to see her no further away than Calgary's narrow little streets. It was a brief glimpse to be sure, but gave something of the thrill of personal acquaintance. Not long after this trip was over, the King made his final broadcast, which came as a shocking revelation of the inroads of the disease which was soon to claim his life. The end was to come unexpectedly while Elizabeth and Philip had started out on a projected tour of Africa and Australia.

These events heightened personal feeling. This was supplemented by the massive pageantry of the coronation, with its historical perspective linking ancient rites and customs with modern days, and touching them with the spiritual tone of Christian hopes and aspirations. It was an historic occasion, and we were glad to have the radio as a means of following the service, step by step, and phase by phase.

However much we wanted, there were not many of us who were able to make the trip to England, nor be present at the actual service itself. To be an eye-witness is something special, even though the film "A Queen is Crowned" did give us a splendid view of the whole service. Rev. A. S. Wood, of the British and Foreign Bible Society, was able to make the trip, and was in the Abbey at the time of the coronation. In addition to that most memorable occasion, he was able to tour a bit through the Old Land, and visit places made famous for beauty and for historical interest. He brought back pictures and has a most interesting story to tell of his experience there.

The local Woman's Missionary Society is sponsoring his visit here. Everyone is very cordially invited to attend Knox United, Feb. 12th at 8:00 p.m., when he will give his illustrated talk "Britain in Coronation Year." An offering will be taken and the proceeds will be devoted to the work of the Missionary Society, and the Bible Society also. This is a special occasion, and I know that you will not want to miss it.

Speaking of later, may I call your attention to the fact that "there are only nine more worshipping days" until Easter."

Notes From D.A.

HUGH McPHAIL

The following article by Dr. Childs, Ottawa, veterinary-general, should be of general interest.

Owing to the present favorable situation in the western provinces with respect to rabies, brought about by quarantine measures and protective vaccination applying to dogs, together with a vigorous and successful campaign to depopulate predatory wild life, such as wolves, foxes, etc., which are carriers and spreaders of the disease, it has been possible without further endangering the lives of domestic animals or the human population to remove all quarantines imposed on account of rabies affecting dogs in the provinces of Manitoba, Saskatchewan, that part of Alberta south of the 53rd parallel, North latitude, and the Queen Charlotte Islands.

However, it should be kept clearly in mind that rabies exists and probably will continue to exist among predatory wild life in all the northern areas of Canada. That situation poses a continuous menace to both domestic animal and human life in northern districts, and by extension southward if multiplication of predatory wild life is not adequately controlled. Having no assurance that rabies will not again be spread southward by rabid predators, as dogs are the chief spreaders of rabies in populated areas and rabies infection means certain death to any person or animal infected, people throughout Canada, and particularly those living in northern areas of the Western provinces, are advised and urged to keep their dogs under strict control and beware of the stray or ownerless dog. Proper control of dogs, plus protective vaccination, are the most effective means of preventing spread of rabies.

WEST NOTES

(From Our Own Correspondent)

(Intended For Last Week)
Mr. and Mrs. O. Thompson, Mrs. V. Krebs and Mr. and Mrs. A. Krebs spent Thursday evening with Mr. and Mrs. Alfred Cowits.

Mrs. L. Harting spent Sunday with Mr. and Mrs. A. L. Hogg. The Rugby W.I. held a whist drive at the home of Mrs. Alex Blain on Monday evening, with six tables in play. Honors went to Mrs. A. L. Hogg and Mr. D. Hoesgood, consolation to Mrs. C. Byrt and Mr. P. Hoesgood.

A rink consisting of Mr. Jay Tuglie, Mr. C. Sorenson, Mr. C. Shannon and Mr. A. Klem, curled against Messrs. Arnold Hogg, A. L. Hogg, H. Hoesgood and P. Laft on Elkton ice on Sunday, the latter team being the winners.

Mr. and Mrs. Alfred Cowits were Calgary visitors on Sunday. Mr. and Mrs. O. Thompson, who were Calgary visitors on Friday and Saturday, are leaving to make their home in Didsbury.

A meeting to try and organize a branch of the Women's Institute in Didsbury will be held at the home of Mrs. E. Blain Friday, Feb. 19 at 2:30 p.m. Everyone welcome. The Elkton Willing Workers held a successful foot sale in the Massey Harris show room last Saturday and wish to thank all those who helped towards its success.

CHRISTIAN SCIENCE

How spiritual understanding of God brings health and harmony in human experience will be brought out in the Lesson-Sermon entitled "Soul" which will be read at Christian Science services on Sunday. The Bible selections include this citation from Psalms: "Why are thou cast down, O my soul? and why art thou disquieted within me? hope thou in God: for I shall yet praise him, who is the health of my countenance, and my God" (42: 11).

Among the passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy to be read will be the following: "We cannot deny that Life is self-sustained, and we should never deny the everlasting harmony of Soul, simply because, to the mortal senses, there is seeming discord. It is our ignorance of God, the divine Principle, which produces apparent discord, and the right understanding of Him restores harmony" (390: 9).

The responsive reading includes the following verses from the Bible: "God be merciful unto us, and bless us; and cause his face to shine upon us; that thy way may be known upon earth, thy saving health among all nations" (Psalms 67: 1, 2).

Average yield of wheat in the 55-year period up until World War 2 was 14.01 bushels an acre. The deviation throughout the period was not great — from 13.4 bushels in 1918 to 14.9 bushels in 1908.

Chemical weed killing materials are potent and very effective, but need to be handled with care. Used carelessly they can cause damage. This is mostly by drift to nearby sensitive crops, gardens and windbreaks. Fortunately very few weed chemicals are poisonous to humans and animals. 2,4-D is non-poisonous and non-inflammable. The first steps in handling chemicals, such as 2,4-D is to carefully measure the amount of 2,4-D to be added to a known gallonage of water. Neither the gallonage of water nor the amount of 2,4-D to be added should be guessed at — always measure the exact amount of each.

The same applies to all other weed chemicals. Care in applying the material, whether spray or dust, is very important. The machine used for the job must be in A-1 working order. With sprayers particularly care should be given to pump pressure, plugged nozzles and the correct height of the boom in relation to the crop being sprayed. Care is necessary to avoid "misses and overlapping."

If a marker is not used, probably flags at each end will aid in obtaining proper coverage. I cannot overemphasize the need of care in seeing that a good application job is done. The matter of drift, especially if dust is used, should not be overlooked. Fortunately, to date very few complaints have been made against careless operators. Avoid application on windy days.

Remember windbreaks, gardens and some crops, such as alfalfa, are sensitive to 2,4-D. One last word on the sprayer or duster. If used for other purposes on sensitive crops, it must be thoroughly cleaned before using.

Vaccinations for Bang's disease is again progressing. They were held up for several weeks in January during the extreme cold spell. You will be notified when to expect the veterinarians if you have not already had your calves vaccinated.

Easter Seal Drive
Now Underway

Following is a letter being circulated by the Children's Hospital Aid Society, which is self-explanatory:

Dear Friend:
Once again it is "Easter Seal" time for Alberta's Crippled Children and their hopes depend on your generosity.

Our voluntary organization has worked in the interests of these children for 46 years. We were the first organization in Canada to send out Easter Seals for crippled children, and this is our 10th year. We are the only organization donating the entire funds from the sale of Easter Seals to the Crippled Children's hospital. With your help we have assisted in equipping the new hospital and we will continue to help in its furnishings and maintenance and in contributing to the comfort and happiness of its patients.

This is what we have already done in the new hospital:

1. We have furnished two wards costing over \$6,000.
2. We paid \$22,800 for the first elevator.
3. We purchased a \$20,000 X-ray unit.
4. We have added an additional part for the X-ray unit especially needed for poliomyelitis at a cost of \$850.
5. We provide \$600 each month for the up-keep of our wards.
6. We have purchased a second elevator at a cost of \$25,000.

To cover the expenses of our "Easter Seals" campaign we:

1. Sell programs at the football games and the annual horse show.
2. Have our annual tea at Terrell's greenhouses.
3. In June, 1952, we recovered \$730 from the "Wishing Well" in the Uptown Theatre, and in June, 1953, we recovered \$880.

All the clerical work of our campaign is done voluntarily by our 65 members, thus assuring you that every cent of your donation goes to the crippled children.

Yours sincerely,
Children's Hospital Aid Society

TAXES MORE THAN WAGES

Canada's auto manufacturing industry employed an average of 38,000 last year. Employees of firms supplying automakers rose to an estimated 160,000.

Taxes paid on motor vehicles amounted to more than the total earnings of all employees of the manufacturers. The total on Canadian-built cars and trucks reached \$162.7 millions, an increase over 1952 of \$24.3 millions and \$16.5 millions more than was paid out to employees in earnings.

Western Canada's Oil Industry is spending \$ 1,000,000 a day!

To find new oil sources and develop the fields that have been found, the oil industry is spending at the rate of a million dollars a day.

Oil development in Western Canada today is the result of a tremendous and continuing investment by the oil industry.

Oil in our own backyard has meant

- lower prices for petroleum products;
- increased employment;
- new industries;
- governments are receiving new income through royalties, rentals, bonuses and other payments. This money is helping to provide schools, roads, and other developments contributing to the common welfare.

The West is a good place to live. Oil has made it better.

Rugby Institute February Meeting

The February meeting of the Rugby W.I. was held on the 3rd at the home of Mrs. Wilfred Luft with 15 members and one visitor present.

The meeting opened with a song, followed by the creed.

Roll call was answered by giving a helpful hint for the sick room. Mrs. McNaughton gave a very interesting paper on "Health", her topic for the afternoon.

The new president, Mrs. Lawrence Krebs, presented the retiring president and secretary with a cup and saucer.

The "bit of fun" was conducted by Mrs. Annie Krebs and the five-minute topic on "Federated News" was read by Mrs. Douglas Hoesgood.

Mrs. Hogg gave a short talk and 7c per member is to be sent to Federated W.I.

A whist drive was held at the home of Mr. and Mrs. Alex Blain on Feb. 1st, with first prize going to Mrs. Hogg and Mr. Douglas Hoesgood. Ladies' consolation went to

LIVESTOCK MARKET

PREDICTIONS

The Canadian livestock market is influenced to a great extent by the market in the United States. For this reason comments made in the Farm Outlook published by the State College of Washington will be interesting to farmers.

The year 1954 is expected to be a good one for hogs. Production through most of the year will be less than in 1953 and prices will be favorable. There may be some weakening in price in early February which may continue until the early part of April, after which a price rise appears likely. Following the late July or early August high a small price decline may again set in and continue to November or December. The report says that favorable profits will likely mean an increase in hog production, with some increase showing up

Mrs. C. Byrt with Mr. Percy Hoesgood taking the men's.

Mrs. Hogg offered her home for another whist drive, which will be held on Monday, Feb. 15th. The tea draw was won by Mrs. Cowits Sr.

In the spring of 1955 and a greater increase by late 1955.

In regard to U.S. cattle prices the Farm Outlook predicts that a decline appears unlikely this spring due to the fact that there are a smaller number of cattle on feed this year than last year.

M.V.B.C. NEWS

The College campus was a buzz of excitement on Friday and Saturday as many young people came by car, train and bus to attend the Youth Fellowship Convention held in the church. Young people from 12 years and upward were soon housed and cared for by the student council, under the capable leadership of President Marvin Walz. During the weekend 524 meals were served in the dining hall. On Saturday evening a youth banquet was held. Approx. 172 persons sat down to the tables and Rev. Willard Swaim, director, closed the report from the many fields where the Fellowship is organized. It was good to be there. Rev. Willis Hunking, returned missionary from Africa, was the main speaker, and his dynamic messages were a challenge to all who listened. The church was well filled for each service, but on Sunday morning and afternoon the capacity of the church was strained indeed. We trust that many of these fine young folk will be with us next year in College.

Mrs. Florence Finlay, returned missionary from Africa, will be a guest in the school this entire week. She will speak each morning in chapel at 11:30 a.m. We welcome Mrs. Finlay whole-heartedly, for she is a beloved friend in this College, having worked here for a while some years ago.

Mr. and Mrs. Franklin Lusk sing in First Baptist Church each Sunday evening for some weeks to come. Special services in that church are being conducted and these fine singers have been engaged for the occasion.

We are happy to have Gerald Hubick back with us again. He returned to school last Friday. Last Friday the school engaged in an all day of prayer. Twice each school year such a day is set aside and great spiritual benefit is gained. She will speak each morning in chapel at 11:30 a.m. We welcome Mrs. Finlay whole-heartedly, for she is a beloved friend in this College, having worked here for a while some years ago.

Mrs. Maynard Snyder was assistant cook during the convention. It is always a pleasure to have her here, for she has served in the capacity of such assistance a number of times.

During the month of February, Mrs. C. J. Hallman will be speaking on Sunday School work each Sunday morning on the Good News Program, CKKL, at 7:30 a.m. You will want to hear her. Several Sunday Schools will sponsor these programs.

The College Choir appeared for the first time on Sunday afternoon. They sang three numbers and we are sure from their hearty singing that they will present a really fine program of sacred music this year. Mr. Lusk is to be commended most highly for the excellent work he is doing with these young people.

FEBRUARY MEETING OF LONE PINE W.I. GIRLS' CLUB

The regular meeting of the Lone Pine Girls' Club was held at the home of Iona Shells. The meeting was opened with three songs. Roll call was answered by a home decorated Valentine cookie.

After the correspondence was read the general business of the meeting was discussed. The treasurer gave her report, after which Patsy Spragg gave her talk on ants.

The ten-cent draw was won by Bette Neureid and netted \$3.05. The "bit of fun", given by Linda Shells, was won by Sandra Brander for juniors and Gloria Schumaker for seniors.

The "bit of fun" given by Beverly Thompson was won by Linda Shells for juniors and Gloria Schumaker for seniors. After the meeting was adjourned a lovely lunch was served by the hostess.

**QUALIFICATION CERTIFICATE**

for
JOURNEYMAN CARPENTERS
Regulations Respecting the Carpenter Trade
September 15, 1953

A person upon submission of proof of efficiency and not less than four years of qualifying experience in the carpenter trade prior to the date of the publication of these regulations in The Alberta Gazette, may make application for a certificate of qualification. A certificate of qualification may be issued to a journeyman provided that he makes such application for the certificate of qualification before June 1, 1954.

Should a candidate make application for a certificate of qualification after June 1, 1954, he will be required to take an examination to establish his proficiency. Candidates who fail to qualify for a certificate will be given an appropriate standing as an apprentice and may then register as an apprentice and complete his training according to the Apprenticeship Act and these regulations.

Application forms may be secured from members of your Local Advisory Committee or from the Provincial Apprenticeship Board, Administration Building, Edmonton or Provincial Building, Calgary.
